Title: **METHOD OF MONITORING INTRODUCTION OF INTERFACIAL SPECIES**Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

**RESTRICTION ELECTION**

In response to the Restriction Requirement dated July 26, 2004, Applicants hereby provisionally elect Group I, claims 1-15, drawn to method, classified in class 438, subclass 14. This election is made with traverse, and Applicants hereby reserve the right to file a divisional application in connection with unelected claims 16-20, drawn to apparatus.

With regard to the Restriction Requirement, Applicants respectfully submit that the subject matter of all claims 1-20 is sufficiently related that a thorough search for the subject matter of any one group of claims would encompass a search for the subject matter of the remaining claims. Thus, Applicants respectfully submit that the search and the examination of the entire application could be made without serious burden. See MPEP § 803, in which it is stated that "if the search and examination of the entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to independent or distinct inventions" (emphasis added). Applicants respectfully submit that this policy should
